### Portable Magnetic Vibrating Tables

These robustly manufactured vibrating tables conform to the requirements of AS1012.8.1. They have been developed for field use with 12V DC operation, they are supplied with 4m of electric flex together with a fused cigarette lighter fitting.

They can be manufactured with a 'holding down' mechanism, as shown here

**6 Concrete Cylinder Moulds**

**Flex. Beam Mould**

#### Features

- Reasonably portable (mass 40kg)
- No clamping system necessary
- Waterproof on-off hold down switch
- Leveling system with built in "bulls-eye" bubble
- Can handle up to 6 x 100mm dia. Cylinder Moulds or 150mm wide Flexural Beam Moulds if pre-ordered.
- ALL THESE TABLES ARE PLATED

#### Specifications

- 50Hz, 12V DC
- Magnetic bed: 400 x 200mm
- Mass: 40kg
