

## Digital mortar mixers

EN 196-3 | EN 459-2 | EN 413-2 | EN 196-1 | EN ISO 679 | EN 480-1

### MAIN FEATURES

- Complete with bowl and beater conforming to EN Standards
- Continuously variable speed (VFD technology)
- Either Standard or user defined speeds can be easily selected (also adjustable during mixing)
- Blade/Planetary speeds adjustable from 30/13 to 380/165 rpm, depending on the mix consistency
- 3-points bowl supporting system allowing precise adjustment of the gap between bowl and beater
- Digital mixer, user friendly interface with functional alphanumeric display 2 x 16 characters and keyboard
- Micro-switch preventing the machine to be started without bowl, and emergency stop button
- Conforming to CE requirements

### GENERAL DESCRIPTION

A robust device for the efficient mixing of cement mortars, this mixer is a table mounted unit with planetary mixing action and a bowl and beater that are easily fitted and removed. The front grill, when opened, automatically stops the machine for operator protection conforming to CE requirements.

The machine is supplied complete with bowl and stainless steel beater conforming to EN Standards.

The machine operates with a dedicated and easy to use display and keyboard control. Either Standard speeds or user defined speeds can be easily selected (also adjustable during mixing).

The machine can be supplied, on request, complete with a sand open-type hopper. See accessories
