

DATA SHEET

Drainage basket

EN 12697-18

GENERAL DESCRIPTION

The test is performed for determining binder drainage of bituminous mixtures, for estimating the binder drainage for different binder content and to evaluate the effect of varying the fine aggregate or anti-draining additive content. The test is performed with the Drainage basket and Metal tray.

- Weights approx.: 75-B0019/A basket 360 g, 75-B0019/B Metal tray 210 g.

ORDERING INFO

75-B0019/A

Drainage basket 100x100x100 mm, stainless steel perforated plate 3.15 mm dia. holes, with feet.

75-B0019/B

Metal tray, 160 mm sq., 10 mm deep.

75-B0019/A, 75-B0019/B
