## Marshall Compactor

### Double Automatic Standard-duty 4" indexing compactor

Cat. No. 76-B4445.GIL

#### Features:

- Optimal for simultaneous compaction of two Marshall asphalt specimens
- Bevel-faced hammers & indexing base plates produce uniform kneading motion during compaction
- Automatic counter shuts off hammer blows at preset number
- Single motor operates hammer and indexing feature.
- Suitable for AASHTO T245, ASTM D5581, ASTM6926, and AASHTO R68 Standards
- 230V / 50Hz

The Double Automatic Standard-Duty Marshall Compactor compacts two 4in (102mm) asphalt specimens simultaneously in indexing molds. Bevel-face hammers and indexing base plates produce a consistent kneading action during compaction. Molds rest on steel plates covering large oak pedestals during compaction. A powerful motor operates the hammer and indexing feature and the automatic counter automatically shuts off operation at the required number of blows. 10lb (4.54kg) bevel-face hammers and MSA-101 4in mold, base, and collar assemblies are included.

#### Included Items:

- MS-2 Double Automatic Standard-Duty 4in Indexing Compactor
- 10lb (4.54kg) bevel-faced hammer
- MSA-101 4in mold, base and collar assembly
