Concrete Vibrating Tables—General Brochure

STANDARD TABLES

Geo-Con manufacture a variety of Concrete Vibrating Tables: -

- Portable (12V DC) Magnetic Vibrating Table
- Bench Top Electric Vibrating Table, with two clamping system options
- Standard Laboratory Electric Vibrating Table, with these tables Clients have a choice of clamping systems (see below), power supply (single or 3 phase and calibration to AS.

**Portable (12V D.C.)
Magnetic Vibrating Table**

**Portable (12V D.C.)
Vibrating Table**

**Bench Top Electric Vibrating
Table.**

Standard Laboratory Electric Vibrating Tables Features:

- Powder coated, with 'skirt' for easy cleaning,
- Adjustable lock down feet

Options:

- 'Con-Test' or 'hole' clamping system,
- Single or three phase,
- Made to AS 1012.8 or RTA T304 Test Method.

CUSTOM MADE TABLES

Geo-Con can manufacture vibrating tables to a customers specific requirements—these not stand-ard items and sufficient time must be given for their production. Some examples are given below.

GC 17 HD Vibrating Table
(Variable amplitude & frequency)

Electric movable
(1 ph. 8 cylinder clamp)

Electric stationary
(3 ph. 10 cylinder clamp)

Double magnetic
(1 ph. with lock down adjustable feet)

Trolley mounted
(12V D.C. with rechargeable battery)

EHDSleeper Vibrating Table
(3ph. dual counter-rotating vibrating motors)

Clamping Systems can be design to suit Clients requirements
